

Milliken  
**CoFlex® TLC**  
 Two-Layer Compression

Milliken's CoFlex® TLC two layer compression kits are designed to help deliver a streamlined approach and excellent care in the treatment of venous leg ulcers.

Made in the USA, CoFlex TLC is designed to enhance the experience of both the clinician and patient. Clinicians can choose from a wide variety of options to best solve their patients' needs with the same easy application. Patients will enjoy the comfort the systems provide which has been known to increase compliance.

## The CoFlex TLC Difference

### Ease of Use

- Offers a comprehensive family of products
- Two-step, quick, easy application
- Promotes safety through consistent application across entire line
- Features EasyTear technology for convenience

### Patient Comfort

- Stays in place
- Provides comfort during wear
- Conforms to patient's anatomy
- Dry options have odor and itch control
- Zinc/Calamine options have a soothing effect on irritated skin
- Promotes longer wear time with high vapor transfer rate

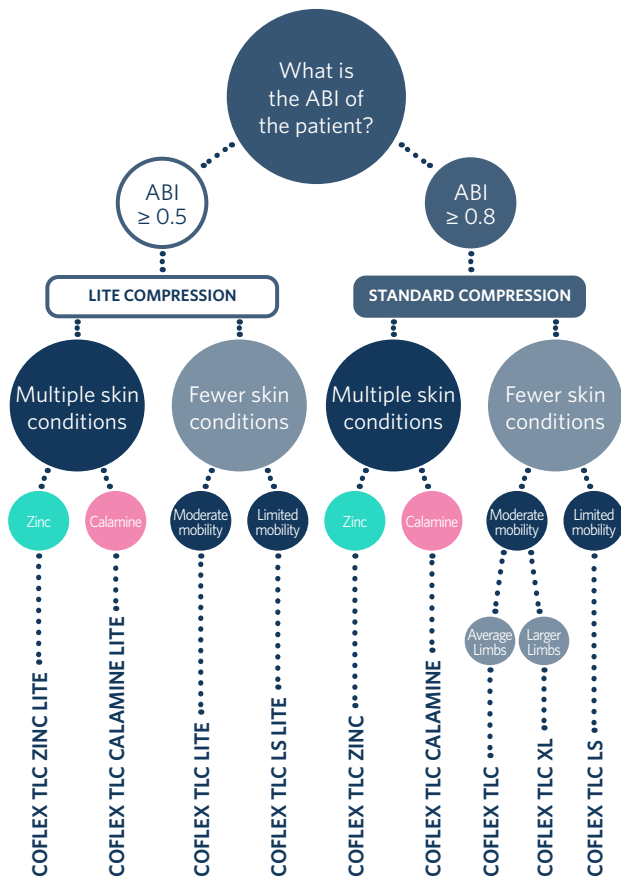

### Effective Compression

- Provides restorative compression for patient needs
- Features visual indicators to guide intended compression

# SELECTION GUIDE

Milliken's CoFlex TLC, Zinc, Calamine and Long Stretch kits provide a two-step system for comfort unlike any other two-layer compression.
